### Description

LUBRITEF is a dry lubricant spray, based P.T.F.E., suitable for plastic materials and mechanical parts. It resists to chloride acid and nitrate acid; it is especially suitable for surfaces treatment of the machine and it is a good lubricant for mechanical parts. It makes a dry film that resists for several hours of work. It does not oil or stain. It is a dry lubricant that reduces the friction coefficient and it is a good antiadhesive. Good lubricant for embroidery and sewing machines.
